Summary

Service and Support Engineer with 19+ years of experience delivering reliable IT and telecom services in large-scale environments. Proven track record of owning services end-to-end, maintaining high SLA performance (95%+), and driving continuous improvement through root cause analysis. Strong background in cross-functional collaboration, service delivery coordination, and user-focused support. Committed to ensuring service reliability, accountability, and operational excellence.

Work Experience

Services, Support & Integration Engineer (Certified Experienced Services Engineer, 2010), Ericsson Oy LM, Jorvas, Finland

10/2005 – 12/2024

- Delivered comprehensive technical services and managed network integration for Ericsson telecom and datacom systems across customer and internal testing environments.
- Authored technical documentation, including Methods of Procedure (MoPs), High-Level Designs, migration studies, and test plans to ensure smooth implementations.
- Conducted hands-on installation, configuration, integration, and troubleshooting of systems during rollouts, enhancing system reliability.
- Resolved and managed support tickets, achieving a 95% SLA compliance rate using remote support tools and proprietary systems.
- Collaborated with cross-functional and regional teams on system upgrades, deployment testing, and performance optimization.
- Mentored colleagues and contributed to internal knowledge sharing to strengthen team capabilities.
- Performed root cause analyses and implemented effective corrective measures to maintain high technical standards.

Software Engineer, Empresa Telefónica Ericsson, Saltillo; Coahuila., Mexico

03/1995 – 04/2002

- Participated in the software development lifecycle for AXE telecom products, focusing on design, documentation, testing, and maintenance processes
- Partnered with project teams to introduce innovative features and optimize overall system performance.
- Ensured high code quality through meticulous reviews and strict adherence to internal development standards.

Cartographer Designer, I.N.E.G.I, Saltillo; Coahuila, Mexico

09/1992 – 02/1995

- Created topographic and thematic maps using ArcInfo and AutoCAD software, demonstrating a high level of technical expertise
- Analysed geographical data and contributed to the development of spatial databases for national projects, enhancing the accuracy of geographic information.

Education

Vocational Qualification, Module: Advanced Data Analytics Specialist, Taitotalo, Helsinki, Finland

09/2025 – 04/2026

Module: Advanced Data Analytics Specialist, Data Analytics, Machine Learning, Python Programming, BI & Cloud Fundamentals.

Bachelor's Degree, Computer Science, Autonomous University of Coahuila, Saltillo, Coahuila, Mexico

08/1987 – 12/1991

Skills

Technical Skills

- **Telecommunications Networks:** Fixed and Mobile Networks, practical experience with 2G, 3G, 4G technologies; basic knowledge of 5G.
- **Networking:** Basic configuration and troubleshooting of routers, switches, and firewalls. IP Networking.
- **Databases:** GreenPlum, PostgreSQL
- **Office Software:** MS Office, MS 365, Power BI
- **Operating Systems:** Unix, Solaris, Windows, Red Hat Linux
- **Tools:** Wireshark, Jira, proprietary diagnostic tools
- **Programming Languages:** Plex (Intermediate), Assembler (Intermediate), C++, Java, Python (Basic)
- **Data & Analytics:** Power BI, SQL, Azure (basic Knowledge), Microsoft fabric (basic Knowledge)
- **Others:** Basic knowledge of APIs, ticketing systems, Basic Knowledge of Cloud Platforms (Azure).

Soft Skills

Customer Orientation | Communication & Collaboration | Teamwork | Adaptability | Initiative / Proactive Approach | Problem-Solving

Languages

- Spanish: Native
- English: Professional Fluency
- Finnish: Intermediate Proficiency

Additional Information

- Strong service mindset with focus on end-user experience
- Proven ability to prioritise, coordinate, and drive tasks to completion
- Experienced in working in multicultural and distributed team environments
